Made to Measure - Living

All of our furniture is constructed of solid wood, hand built using our distinctive Quebec yellow pine. A solid wood carcase gives the pieces excellent integral strength. All drawers are dovetail jointed with solid fronts, backs and sides, and a ply base for stability and strength. Any of our furniture can be produced with a painted finish. Turned feet can be added as an optional extra.

A Monk's settle with its hinged seat is ideal for a hallway, providing useful storage as well as being a convenient seat for donning footwear. Please ask for further details.

We also make computer tables, and desks to your requirements, please ask.

Please remember we make to measure, these illustrations and prices are meant as a guide. If you have an idea of what you need making, call us to arrange a measure up. We can then visit you in your home to measure up and discuss your project.

Made to Measure - Bookcases & Shelves

Bookcases and shelves can of course be made any size, with as many or few shelves as required. Shorter pieces tend to have a flat wood top with a bevelled edge, whereas taller pieces can have a cornice top to give a little more finesse. The backs of all our book cases and shelves are made of Victorian style grooved solid wood boards.
